

# Savanna Maasai Culture

Found in Tanzania & Kenya, the Maasai's distinctive Culture preserves its own ways of living in the Savanna.

The Maasai culture influences the way how community behaves in everyday life. The Maasai originally come from the upper Nile valley, by the 1600s they had begun migrating with their cattle into the vast arid, savanna-like region of East Africa. Today, the border of their homeland is Lake Victoria to the west & Mt. Kilimanjaro to the east. In Tanzania, Maasai are found in Arusha, Manyara & Morogoro in Kilosa district. In Maasai culture, a Cow is a sign of Wealth. If it gets killed for Festivals, all parts of the Cow will be used. The Maasai have a rich collection of oral literature; myths, legends, riddles & proverbs but also make decorative beaded jewellery i.e. necklaces, earrings, ankle bracelets & wrists. They are always fashionable and each age group invent new designs.
